REFINED COLOR SERIES

THE COLOR DISCUSSION

Shades merge seamlessly, forming a tactile story where light
and shadow softly converse.

Exploring tones that shape spaces, blending color, texture and lifestyle into expressive living experiences

THE
DISCOURSE

OUR
COLOR STORY

LUMINEX ACRYLIC is the embodiment of contemporary luxury, where radiant brilliance meets refined craftsmanship. Created for spaces that demand distinction, our premium acrylic surfaces are designed to reflect light with exceptional clarity, adding depth, elegance, and a sense of refined sophistication to modern interiors. Every Luminex surface is a statement—polished, expressive, and crafted to elevate the visual language of today's design-forward environments.

At the heart of Luminex lies a commitment to precision, innovation, and timeless aesthetics. Our acrylic sheets are engineered to deliver superior gloss retention, rich color intensity, and a flawlessly smooth, mirror-like finish that endures over time. Designed for both beauty and performance, Luminex Acrylic offers excellent durability, easy maintenance, and long-lasting visual appeal—making it the preferred choice for premium kitchens, wardrobes, furniture, and bespoke interior applications.

Driven by an uncompromising pursuit of quality and design excellence, LUMINEX ACRYLIC transforms ordinary surfaces into luxurious expressions of modern living. With a balance of elegance, reliability, and innovation, we create surfaces that not only enhance spaces—but define them.

THE

DIALOGUE

— D E C O R —
empire of innovation

With a mission to create high-quality decorative laminates that balance beauty and performance, our vision is to inspire architects, designers and homeowners by delivering innovative surface solutions that bring elegance, durability and distinctive character to modern interior spaces.

OUR
MISSION

To deliver premium laminates that combine durability, design and innovation. We are committed to supporting interior professionals with products that meet evolving market trends while maintaining consistent quality and service.

OUR
VISION

To be a leading name in the laminate industry by offering a wide range of high-quality surface solutions in solid, wooden and marble designs. We aim to set new standards in surface aesthetics, performance and customer trust across modern interior spaces.

OUR
VALUES

Quality First: Durable finish in every sheet.

Design-Driven: Modern trends, timeless elegance.

Customer Commitment: Serving professionals with integrity.

Innovation Focus: Evolving for better performance.

THE

DISCUSSION

A refined interaction of pigments creates a flowing dialogue, where tonal variations build dimension and guide the eye through a seamless visual journey.

SHINE MAKING SPACES UNREAL

Seamless reflective finishes creating luminous environments defined by clarity, depth, and modern elegance.

FACTS & TECHNICAL SPECIFICATION

Your Space, But Leveled Up With Next-Gen Laminates That Flex Style Effortlessly

Acrylic are bonded in extremely humid conditions

When substrate loses moisture after installation.

Use water-based synthetic resin adhesive such as PEVA (Polyethylene Vinyl Acetate Co-polymer).

Debonding in certain areas because of uneven substrate surface.

Insufficient or lack of pressing during the bonding period of laminates.

Use of extremely large acrylic/ PVC laminates sheets
Available size (8 ft. x 4 ft.) & (9 ft. x 4 ft.)

To avoid delamination or air bubbles between the ply and laminate, the above steps should be followed carefully. Bonding of acrylic sheets should not be carried out under high humidity conditions.

Reasons for air bubble formations on Acrylic Sheets

Limited Warranty

Our laminates are crafted with both aesthetics and durability in mind. When used as directed and with proper care, they are designed to maintain their beauty and functionality for years to our products are crafted to be free of defects and, when handled and installed correctly, are designed to meet or exceed manufacturing specifications. We strongly recommend that all products be thoroughly inspected prior to installation. Our warranty does not cover defects or non-compliance arising from improper use, handling or any other causes, including but not limited to:

- Improper handling, transportation or storage.
- Incorrect installation.
- Misuse or unintended use of the products.
- Inadequate maintenance.
- Exposure to extreme temperatures.
- Unauthorized modifications.
- Use in outdoor environments.
- There will be no guarantee or exchange under any circumstances.
- Color variations in products from different batches are possible.
- We recommend using products from same batch to avoid color variations.
- This brochure is for presentation purpose only. Actual colors may differ.

- Exposure to direct sunlight can gravely affect the laminate's appearance.
- Use of inferior or sub-standard dipped plywood or dipped lipping patti, which may chemically react the adhesive.
- Prolonged exposure to high temperature (above 30° C - 35° C)
- If hot cookware or utensils are directly placed on the laminates.
- To avoid the inside cracks & stretch line do not store acrylic sheet in roll form.

CAUSES OF YELLOW PATCHES AND COLOR FADING AFTER INSTALLATION.

Exposure to Direct Sunlight Can Gravely Affect A Laminate's Appearance.

Use of Synthetic Rubber Adhesives Such As SR/Jat Pat, Bostic, Heatx, Etc.

Placing Hot Cookware or Utensils Directly on The Laminate.

Use of Inferior or Sub-standard Dipped Plywood or Dipped Lipping Patti, Which May Chemically React With The Adhesive.

Prolonged Exposure to High Temperature (above 30° - 35°).

APPLICATION

Kitchen Shutters

Wardrobe

Door & Drawer Fronts

Office Spaces

TV Unit

Furniture

CLEANING & MAINTENANCE

- Do not place any hot substrate or cookware directly on laminates.
- Do not use thinner or any harsh cleaning agent to clean the laminates as it can damage the laminate surface.
- Alcohol-based cleaners.
- Solvent-based cleaners.
- Petrol, Pine wood or Oil-based cleaners.
- Cloths other than a microfiber cloth.
- Cleaning should be done with water along with a smooth cloth.
- Exposure to temperature above 30'c may cause damage to surface

CUTTING & INSTALLATION

- These acrylic laminates can be cut by standard wood working tools.
- Laminates can be easily pasted by using Acrylic to wood adhesives which are easily available in market.
- Clean the laminate and base substrate by soft brush or soft cloth before application.
- The pressing of laminate should be done from middle and move towards the sides and comers of laminate sheet.
- Sufficient pressure should be given to LUMINEX DECOR for almost 15 hours to get a good bonding strength.
